## Review

**Aims** To review and practise the vocabulary and grammar from Unit 1

**Time** 15 minutes

**Materials** 1 copy of the game for each group of four students; you will also need dice and counters

- Divide the class into groups of four and give each group a copy of the board game, a dice and counters. The counters should all be placed on the START square.
- The first student rolls the dice, moves their counter and answers the question. If they cannot answer it, they miss a turn. Tell the students that they must answer with full sentences and extend their answers where possible.
- The winner is the first student to the FINISH square, or the player on the highest number when you stop the game.
